September 25, 2020

At 10:00 PM this evening the Brazosport Water Authority was informed by Texas Commission on Environmental Quality (TCEQ) of a potential Primary Amebic Meningoencephalitis in the water supply. At the request of the TCEQ, the Brazosport Water Authority is issuing a Do Not Use advisory for all water in the following cities Lake Jackson, Freeport, Angleton, Brazoria, Richwood, Oyster Creek, Clute, Rosenberg, Dow Chemical, TDCJ Clemens and TDCJ Wayne Scott. We will continue to work with the Centers for Disease Control (CDC) and the Texas Department of State Health Services (DSHS) and TCEQ to ensure the water supply is restored to normal use as quickly as possible. The Brazosport Water Authority will continue to provide updates to the public as we work to resolve this situation.
